

SCENE

WORK AND MEETING TABLES

A contemporary & minimalist design. Scene tables function beautifully almost anywhere; from shared and social settings to meeting and conference rooms. Create a welcoming venue for teams to work, gather and connect. Scene tables feature a solid oak base and trough. The A Frame and trough provide structural support and cable management. A durable wood edge emphasizes the expansive top. Power with USB and data connections are conveniently located along the surface. Power centres are flush mounted and may be configured to meet specific requirements.
