Modularity/Reconfigurability

Task is designed to provide flexible and functional solutions to accommodate open plan and private office applications. Task is responsive to changing needs. Modular, non-handed components can be easily reconfigured or expanded to adapt to the demands of evolving organizations and technologies. Complementing mobile components increase product flexibility and allow for ease of assembly and relocation.

Mass Customization

With a choice of durable laminate options, a generous selection of standard components and custom capabilities, Task provides tailored solutions to meet unique specifications.

Worksurface Shapes/Reception

Familiar and progressive worksurface shapes provide infinite planning options to accommodate private and teaming applications.

Office Technology

Task is equipped to address the need for effective technology management. An integrated wire management system routes and conceals cables and allows convenient access. A variety of sliding and articulating keyboard options satisfy user preferences.

Storage

Task includes a comprehensive storage offering with an assortment of credenzas, storage cabinets, personal organizers, bookcases, combination filing and wardrobe towers with a range of options. Available options include laminate or glass doors, linear and curved drawer pulls in a choice of finishes.

Value: ‘It’s in the Details’

Thoughtful features combined with superior construction enhance product function, durability and performance. Advanced factory technologies and unparalleled quality is achieved with the EdgeVantage™ finish. The result is a seamless edge application with impenetrable seal.

Quality

Task is built to the highest quality standards employing the finest materials combined with precision engineering and manufacturing. Unique metal-to-metal fittings with dowel joinery maintain structural integrity and provide ease of product assembly to allow components to be moved and changed as often as needed.

Task PLUS Storage

Task Plus Storage offers a contemporary design structured and supported by furniture feet to retain a simple sophistication. A series of adaptable, multi-functional filing and storage address organizational requirements and define space. The choice of colour, configuration and appointment of materials enhance design flexibility and emphasize the character and expression of the space.
