

Case Study: Classroom Tables ◀

Objective:

Source an attractive and durable table design to meet the demands of a wide variety of learning and training environments.

Client: Seneca College of Applied Arts & Technology,
Newnham Campus & Seneca @ York Campus
Technology Enhanced Learning Centre (TEL Bldg)

Product: **Fixed & Folding Classroom Tables**

Project Scope: 1500 Classroom Tables

Solution: Offered flexibility in design, exploring new materials, sizes and construction details to enhance product performance and value, while fulfilling the client's requirements. Developed prototypes for client evaluation, ultimately winning out the competition.
